CYBERMED TCM traditional chinese medicine; What is...

CYBERMED the SMART TCM Physician is of the ideal that every practicing doctor be accompanied lifelong by a comprehensive healthtech clinical information platform account that is affordable, connected and easy-to-use in archiving patient clinical clerking notes through the years as a secure connected management system. Doctors use TCM CYBERMED to complement existing hospital information system where appropriate.

For doctors to build a complement Virtual Practice instantly with online telemedicine & home care capability

TCM PHYSICIAN-CENTRIC INFORMATION SYSTEM

CYBERMED TCM Connectivity...

CYBERMED the SMART TCM Physician is by design compliant connected to the entire IMEUS Health EcoSystem for prompt integration to the entire IMEUS HealthTech Platform for new health services, functions and revenue by the doctor.

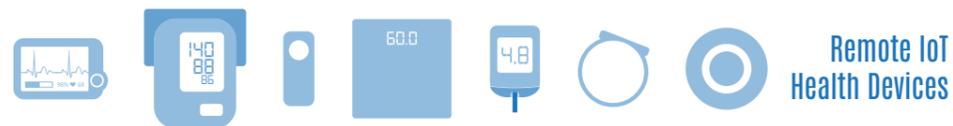

Traditional Chinese Medicine Platform

“For many years I speak my clinical notes on a voice-to-text digital input on my CYBERMED platform” - Consultant

CYBERMED TCM Benefits...

CYBERMED the SMART TCM Physician uses the latest secure HealthTech technologies to provide doctors with reduced costs, time management, productivity, worldwide reach and healthcare cloud connectivity for quality patient care delivery, safety and satisfaction. Great for ward rounds. Making it easy for patients to get connected to doctors for healthcare services as Virtual Clinic with SMART use of HealthTech in empowering doctors with mobile realtime point-of-care access to information.
